October 21, 2011 - how to change player attributes (1-20) in the data editor ? ECCI. Total posts for newbies: 2 since October 2012. July 1, 2012 - Last edited: July 1, 2012 . I edited my database with a data editor and then created new national rules, new leagues, etc. etc. You want me to submit these changes as a new database. How can i do this? You can do this by simply putting the information in all the same places for the database. This is not a problem if you are using this new database for the game. . I can't find my

database here in the menu. What should I do? You can search for it under the Tools menu and then under the Database section and it should show up. . How do I have my database available when I'm in the game?
