## Soldier of Fortune: It's alive, HEY HO

Oct 20, 2018 There is still a problem, when I clear a checkpoint by moving the camera, the game goes into a loop and I can only kill one enemy before getting killed by him. Help me, I have the problem, that when the game is loading or a loading screen is on, it never pauses. Please help me. It does not matter if you are in a vehicle. You can also shoot enemies from behind a checkpoint. Added 18 Sep 2018 I have a serious problem: If I go through a checkpoint, the enemy has to be on the next checkpoint in order to be attacked by me again. And so I can no longer move forward! Can you help me? Aug 1, 2014 I have a problem with this game, I just start it, I see the loading screen and then I can see the game map.. the game starts but the game is black and when I tried to move the camera the controller I have not any mouse movement or I can't click nothing and I lost all my weapons, I have no weapon but the revolver.. please help me.. May 27, 2018 I have a problem, I see the loading screen and then I can see the game map.. the game starts but the game is black and when I tried to move the camera the controller I have not any mouse movement or I can't click nothing and I lost all my weapons, I have no weapon but the revolver.. please help me.. May 27, 2018 I have a problem, I see the loading screen and then I can see the game map.. the game starts but the game is black and when I tried to move the camera the controller I have not any mouse movement or I can't click nothing and I lost all my weapons, I have no weapon but the revolver.. please help me.. What I do? I use a Windows 10 laptop. Some hints for my problem. If you control your camera by pressing R you can't shoot. If you get a black screen, then the game probably can't find the game data. Load up the game using the game data. We recommend you to use a wired connection. . Oct 24, 2019 Here is my problem:I press WIN+R, to play the game.After I press Play, then I pressed Shift+R to control the camera. And after that I pressed Shift+R again.And I press next.
