Elden Ring is an action RPG which is set in the world of ArcheAge. The Lands Between is a vast world which extends further than the boundaries of the known world, and the adventure that unfolds here is the tale of a hero aspiring to become an Elden Lord, holding on to his dream of justice. What kind of story will unfold in a fantasy world where open fields with a variety of situations and huge dungeons with complex and three-dimensional designs are seamlessly connected? The Lands Between is vast and filled with countless dangers. You must arm yourself with the strongest weapons and armor and roll up your sleeves to become a hero in the fear-filled world. The endless battle begins! How will you equip your character? The various attributes of your character represent not only physical strength, but also skill and spirituality as well. As you level up, you may find yourself in a position where you must equip high-level weapons and armor to handle the most powerful monsters. As you progress through the story, you'll receive various skills and quests from the various characters you meet on your journey, and must connect with them to solve the mysteries of the Lands Between. With the right answers, and by completing one of a dozen tricky puzzles, you can trigger extra-special rewards. And the best part is that you can share the rewards with your friends. You could even make tens of thousands of pounds by taking part in the competition - provided you are among the 300 most active users of the Apple Watch. But how would you go about competing in such a cut-throat competition? Well, in order to get your rewards and use all the features of the app, you have to buy the Apple Watch.
