The game is very fun and free, and even though there are no higher level characters to unlock more goodies, there are plenty of activities to do and things to see and learn. 5/5 Liked it A lot Emre Dur, Firestorm 2016, February 7, 2017 The game is very fun and free, and even though there are no higher level characters to unlock more goodies, there are plenty of activities to do and things to see and learn. 5/5 RIDDARBERYL, BEAR, ADMIN and PHATRICK The world of Eldrond is stunningly beautiful and it is a joy to explore while simultaneously keeping track of all the important things going on. The combat and world

interaction is solid and smooth, the customization is satisfying and elegant and exploring the land is entertaining, never boring. As much as I could not play all the time, most of my time spent in the game was and remains spent on just exploring and adventuring. 5/5 PACKAGING, MANUFACTURER, MENTALITY The game offers a refreshing new view on fantasy with a huge world filled with lore and mystery. The characters are interesting and compelling. The game delivers an expansive storyline with a fascinatingly multilayered narrative. Finally, the characters and the interactions between them are so deliciously written that you get the privilege of being able to live through their lives. 5/5

Creating a character There are several areas you can visit, each area has specific NPC's you can interact with. For each area, you will be offered two options one to visit a NPC, the other to visit a shop. Every NPC has a specific dialogue and some have a specific quest you will eventually need to do. As you move on, you will get gold, items and more quests. There are also items you can craft or purchase using gold. As you reach certain level, certain spells or items will become available. You can do the quests provided and at the end of the story, you will be awarded a specific reward (different for each character). As the game progresses, more characters join the party, each with a different background, skills and voice actor. You can have three characters but you can only interact with a certain number of people, you cannot have more than 3 interactions at the same
